PATENT 10/660,072

Please amend the claims to read as follows.

- 1 1. (previously presented) In a World Wide Web (Web)
- 2 communication network with user access via a plurality of
- 3 data processor controlled interactive receiving Web display
- 4 stations for displaying, in a standard display interface
- 5 format, received hypertext Web documents of at least one
- 6 display page containing text and images accessible from
- 7 sources on the Web and hyperlinks to other Web documents, a
- 8 system for selectively customizing the display interface
- 9 format of Web documents bookmarked at a receiving display
- 10 station comprising:
- means for bookmarking a received Web document;
- means for predetermining at least one display interface
- 13 format alternate to said standard display interface format
- 14 for bookmarked Web documents;
- 15 a document folder associated with each alternate
- 16 display interface format, said document folder providing
- 17 each Web document put into said folder with a set of
- 18 predetermined characteristics and values defining said
- 19 alternate display interface format;
- 20 means, responsive to said bookmarking means, for
- 21 enabling a user to put a bookmarked Web document into a
- 22 document folder associated with an alternate display
- 23 interface format; and
- 24 means for displaying bookmarked documents in said
- 25 document folder in said alternate display interface format.

- 1 2. (previously presented) The Web system of claim 1 further
- 2 including:
- 3 means for further bookmarking a hyperlink in a
- 4 bookmarked Web document in a document folder associated with
- 5 an alternate display interface format; and
- 6 means, responsive to said means for further
- 7 bookmarking, for putting the Web document accessed through
- 8 further bookmarked hyperlink into the document folder
- 9 associated with said alternate display interface format,
- 10 wherein said further bookmarked Web document may also be
- 11 displayed in said same alternate display interface format.
 - 1 3. (previously presented) The Web system of claim 1 further
 - 2 comprising:
 - Web browsing means at said receiving display station
 - 4 including:
 - 5 said means for bookmarking a received Web document;
 - 6 said means for predetermining at least one display
 - 7 interface format alternate to said standard display
 - 8 interface format for bookmarked Web documents;
 - 9 said document folder associated with each alternate
- 10 display interface format;
- said means for enabling a user to put a bookmarked Web
- 12 document into a document folder associated with an alternate
- 13 display interface format; and
- said means for displaying bookmarked documents in said
- 15 document folder in said alternate display interface format.

- 1 4. (previously presented) The Web system of claim 3 wherein
- 2 said browsing means further comprise:
- means for further bookmarking a hyperlink in a
- 4 bookmarked Web document in a document folder associated with
- 5 an alternate display interface format; and
- 6 means, responsive to said means for further
- 7 bookmarking, for putting the Web document accessed through
- 8 further bookmarked hyperlink into the document folder
- 9 associated with said alternate display interface format,
- 10 wherein said further bookmarked Web document may also be
- 11 displayed in said same alternate display interface format.
 - 1 5. (previously presented) The Web system of claim 1 wherein
 - 2 said means for predetermining provides a plurality of said
 - 3 alternate display interface formats; and
 - 4 further including a document folder associated with
 - 5 each of said alternate display interface formats.
 - 1 6. (original) The Web system of claim 5 wherein said means
 - 2 for enabling a user to put a bookmarked Web document into a
 - 3 document folder permits the user to put the bookmarked
 - 4 document into a plurality of folders respectfully associated
 - 5 with a plurality of alternate display interface formats.
- 1 7. (original) The Web system of claim 5 wherein said means
- 2 for displaying simultaneously displays said plurality of Web
- 3 documents having said alternate formats in respective
- 4 separate windows.

- 1 8. (previously presented) In a World Wide Web (Web)
- 2 communication network with user access via a plurality of
- 3 data processor controlled interactive receiving Web display
- 4 stations for displaying, in a standard display interface
- 5 format, received hypertext Web documents of at least one
- 6 display page containing text and images accessible from
- 7 sources on the Web and hyperlinks to other Web documents, a
- 8 method for selectively customizing the display interface
- 9 format of Web documents bookmarked at a receiving display
- 10 station comprising:
- 11 bookmarking a received Web document;
- 12 predetermining at least one display interface format
- 13 alternate to said standard display interface format for
- 14 bookmarked Web documents;
- providing a document folder associated with each
- 16 alternate display interface format, said document folder
- 17 providing each Web document put into said folder with a set
- 18 of predetermined characteristics and values defining said
- 19 alternate display interface format;
- 20 enabling a user to put a bookmarked Web document into a
- 21 document folder associated with an alternate display
- 22 interface format; and
- displaying bookmarked documents in said document folder
- 24 in said alternate display interface format.

- 1 9. (previously presented) The method of claim 8 further
- 2 including the steps of:
- further, bookmarking a hyperlink in a bookmarked Web
- 4 document in a document folder associated with an alternate
- 5 display interface format; and
- 6 putting the Web document accessed through further
- 7 bookmarked hyperlink into the document folder associated
- 8 with said alternate display interface format, wherein said
- 9 further bookmarked Web document may also be displayed in
- 10 said same alternate display interface format.

- 1 10. (original) The method of claim 8 further comprising:
- a Web browsing process at said receiving display
- 3 station including said steps of:
- 4 bookmarking a received Web document;
- 5 predetermining at least one display interface format
- 6 alternate to said standard display interface format for
- 5 7 bookmarked Web documents;
- 8 providing a document folder associated with each
- 9 alternate display interface format;
- 10 enabling a user to put a bookmarked Web document into a
- document folder associated with an alternate display
- 12 interface format; and
- displaying bookmarked documents in said document folder
- in said alternate display interface format.
 - 1 11. (previously presented) The Web method of claim 10
 - 2 wherein said Web browsing process further comprises said
 - 3 steps of:
 - further bookmarking a hyperlink in a bookmarked Web
 - 5 document in a document folder associated with an alternate
 - 6 display interface format; and
- 7 putting the Web document accessed through said further
- 8 bookmarked hyperlink into the document folder associated
- 9 with said alternate display interface format, wherein said
- 10 further bookmarked Web document may also be displayed in
- 11 said same alternate display interface format.

10/660,072

- 1 12. (original) The method of claim 8 wherein said step of
- 2 predetermining provides a plurality of said alternate
- 3 display interface formats; and
- 4 said step of providing respectively provides a document
- 5 folder associated with each of said alternate display
- 6 interface formats.
- 1 13. (previously presented) The method of claim 12 wherein
- 2 said step of enabling a user to put a bookmarked Web
- 3 document into a document folder permits the user to put the
- 4 bookmarked document into a plurality of folders respectfully
- 5 associated with a plurality of alternate display interface
- 6 formats.
- 1 14. (previously presented) The method of claim 12 wherein
- 2 said step of displaying simultaneously displays said
- 3 plurality of Web documents having said alternate formats in
- 4 respective separate windows.

15-20. (cancelled)

- 1 21. (previously presented) A computer readable medium having
- 2 stored thereon, a computer program for selectively
- 3 customizing the display interface format of Web documents
- 4 bookmarked at a receiving display station in a World Wide
- 5 Web (Web) communication network with user access via a
- 6 plurality of data processor controlled interactive receiving
- 7 Web display stations for displaying, in a standard display
- 8 interface format, received hypertext Web documents of at
- 9 least one display page containing text and images accessible
- 10 from sources on the Web and hyperlinks to other Web
- 11 documents, wherein the computer program when executed on a
- 12 computer causes the computer to:
- 13 bookmark a received Web document;
- 14 predetermine at least one display interface format
- 15 alternate to said standard display interface format for
- 16 bookmarked Web documents;
- provide a document folder associated with each
- 18 alternate display interface format, said document folder
- 19 providing each Web document put into said folder with a set
- 20 of predetermined characteristics and values defining said
- 21 alternate display interface format;
- 22 enable a user to put a bookmarked Web document into a
- 23 document folder associated with an alternate display
- 24 interface format; and
- 25 display bookmarked documents in said document folder in
- 26 said alternate display interface format.

- 1 22. (previously presented) The computer readable medium of
- 2 claim 21, wherein said computer program when executed causes
- 3 the computer to:
- further bookmark a hyperlink in a bookmarked Web
- 5 document in a document folder associated with an alternate
- 6 display interface format; and
- 7 put the Web document accessed through further
- 8 bookmarked hyperlink into the document folder associated
- 9 with said alternate display interface format, wherein said
- 10 further bookmarked Web document may also be displayed in
- 11 said same alternate display interface format.

- 1 23. (previously presented) The computer readable medium of
- 2 claim 21 wherein said stored computer program includes a Web
- 3 browser program at said receiving display station, wherein
- 4 said browser program when executed causes the computer to:
- 5 bookmark a received Web document;
- 6 predetermine at least one display interface format
- 7 alternate to said standard display interface format for
- 8 bookmarked Web documents;
- 9 provide a document folder associated with each
- 10 alternate display interface format;
- 11 enable a user to put a bookmarked Web document into a
- document folder associated with an alternate display
- interface format; and
- display bookmarked documents in said document folder in
- 15 said alternate display interface format.
- 1 24. (previously presented) The computer readable medium of
- 2 claim 23 wherein said Web browser program when executed
- 3 causes the computer to:
- further bookmark a hyperlink in a bookmarked Web
- 5 document in a document folder associated with an alternate
- 6 display interface format; and
- 7 put the Web document accessed through said further
- 8 bookmarked hyperlink into the document folder associated
- 9 with said alternate display interface format, wherein said
- 10 further bookmarked Web document may also be displayed in
- 11 said same alternate display interface format.

- 1 25. (previously presented) The computer readable medium of
- 2 claim 21 wherein the computer program when executed:
- 3 provides a plurality of said alternate display
- 4 interface formats; and
- 5 provides a document folder associated with each of said
- 6 respective alternate display interface formats.
 - 26. (previously presented) The computer readable medium of claim 25 wherein the computer program when executed
- 1 simultaneously displays said plurality of Web documents
- 2 having said alternate formats in respective separate
- 3 windows.
